RE: Leamington Cement Plant  
Martin Marrietta Cement  
ACT/023/004  
Juab County, Utah

Dear Mr. Berg:

After a cursory review of the Mining and Reclamation Plan submitted by Martin Marrietta Cement for the Leamington Cement Plant and Quarry, the Division would require some additional information;

1. A commitment to Rule M-10, Form MR-8, is needed. (Form enclosed)
2. A field inspection of the site is needed. The Division would propose that some mutually acceptable time after February 11, 1980 be set up, so a representative from Martin Marietta might accompany the Division staff members.
3. Upon a cursory review of the Mining and Reclamation Plan, it does not appear that the cement plant area or facilities are covered. Under U.C.A. 40-8-4(6) Mining Operations would include the cement plant as a milling facility. Therefore the Division requires that the cement plant be addressed in the Mining and Reclamation Plan.

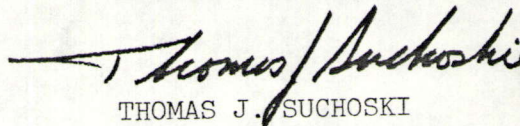

Mr. Marvin L. Berg

Page Two

4. The Utah Mined Land Reclamation Act requires the revegetation program to "achieve a surface cover of at least 70% of the representative vegetative communities...". The Division requires measurements of the cover of the proposed disturbed area. This information may be available from the Forest Service.

The Division awaits Martin Marrietta's replies before continuing the review process. If there are any questions please contact the Division.

Sincerely,

THOMAS J. SUCHOSKI  
RECLAMATION HYDROLOGIST
